SUBJECT: JOINT USG-GOJ FLOOD RELIEF PROVIDED TO ALGERIA

REF: A. 05 AMMAN 8610

[1](#)B. 05 AMMAN 8781

On March 6 and 8, two contracted planes loaded with supplies from UNHCR's regional warehouse departed Amman for flood-ravaged Tindouf, Algeria. The 372,000 pound airlift, which included tents, blankets, plastic sheeting, mattresses and collapsible water containers donated by UNHCR, was jointly coordinated between the USG and the GOJ. The U.S. Department of Defense contracted the Jordanian Armed Forces (JAF) to conduct the operation; the JAF then sub-contracted a private Jordanian firm to crate and load the cargo onto two Antonov-124 aircraft, a Russian version of the U.S. Air Force C-5. This joint effort is the most recent example of humanitarian aid provided in a collaborative effort of the U.S. and Jordan. Previous U.S.-Jordan joint aid efforts include the relief supplies sent to regions of Pakistan destroyed by earthquakes in October and November 2005 (reftels).
